

## 40G Aggregation Switch Original Product

### Overview

H3C S6530X series switches provide industry-leading high performance and scalable aggregation switching solution with modular dual power, fixed uplinks (40GE/100GE) and IRF for resiliency. The series offers OSPF/BGP and multicast, SDN enabled and flexible management. 10G and 40G port combinations for high bandwidth Leaf-Spine, ToR, or EoR network architecture topologies. 3 and Software-Defined. The Cisco Meraki 425 series extends cloud management across the aggregation layer for medium-size networks with our 10/40G fiber aggregation switches. As with our access layer switches, our aggregation switches are built from the ground up to be easy to manage without compromising any of the power. Home Products and Solutions InterConnect Switches Products Campus Network Switches Aggregation Switch H3C S6500 Series Switches H3C S6530X Series Advanced Aggregation 10GE Switches H3C S6530X series switches provide industry-leading high performance and scalable aggregation switching solution with. Suitable for small & medium enterprise core, or large-scale campus network aggregation switch Suitable for SME network core and large-scale network aggregation, 20 x 10GE ports and 4 x 25GE ports for flexible access, 2 x 40GE ports for high-performance uplink The VSU connects to peripherals through. 40G-ready Aggregation Switch, Achieve greater efficiency and speed with Layer 3 managed switches equipped with 10G uplink. Perfect for demanding environments where performance is key. The device's ports support operation at rates of 1 Gbps (SFP), 10 Gbps.
