

72-core optical distribution module

Overview

The ODF Fiber Optic Distribution Frame FC/APC-72 core is a high-performance optical fiber management solution designed for telecommunications, FTTH deployments, and optical transmission systems. Welding & distribution module in integration: Plastic structure, easy for installation of inlay, convenient to expand capacity, obliquity of adapter is 30°, which ensure the bend radius of patch cord and avoid laser burning eyes. It is made from cold rolled steel material. It offers 19" rack with 47U height. It can be wall mounted or pole mounted, and facilitates the test and refit of the. The 72 port fiber optic ODF unit is standard size with 6 inside trays in the closure, its front and rear covers can be opened, convenient to use. The 72 port fiber optic ODF can be loaded with different kinds of fiber optic adapters on panel. All kinds of types and specifications are available.
