

Adhesive for repeated opening and closing of junction boxes

Overview

The use of transfer tape with its thin layer of adhesive is our first choice wherever possible because it is so easy to apply. If you are looking for more strength and resistance, we also deliver double coated tape solutions made from recyclable materials like Tissue carrier and. Redefining the traditional attachment methods, our electrical adhesives negate the need for drills, screws and bolts when attaching trunking and junction boxes to interior walls. Our hot melts are formulated to. Sikasil® AS-785 is a fast curing structural 2-component industrial silicone adhesive and sealant. It is non-corrosive, has a very broad adhesion range as well as an outstanding long-term durability in harsh environment conditions. Fortasun™ PV junction box adhesives/sealants - two-part room temperature cure. Avery Dennison's smart closing solutions, like the re-closure strip, help reduce the usage of plastics. The easy, no-mess application of junction boxes with die-cut 3MTM Solar Acrylic Foam Tape allows for faster fabrication and can result in a cleaner look, compared to liquid adhesives with acrylic foam, which is viscoelastic in nature.
