

Ael emergency power distribution box

Overview

For circuit breakers, switches or sockets installed in racks. Opening for up to 22 modules (18 mm). Length is 120 mm with 15x M5 connections each. Cable entrance in the rear 400 x 35 mm fitted. AEL is an experienced Specialist Electrical Distributor that can support your Hazardous Area and Industrial electrical requirements (IEC, IECEx & ATEX). It must protect people, protect equipment, reduce installation chaos, and make emergency control simple. That is why E-abel designs temporary distribution boxes as complete outdoor power systems, not just painted. Emergency and standby power systems are designed to provide an alternate source of power if the normal source of power, typically the electric utility service, should fail. Whether you work with commercial properties or private residences, we have the range for your next project. We offer products from several well-known suppliers.
