

## Benin operator optical cable

### Overview

Group Vivendi Africa is planning to deploy 5,000 km of fibre-optic cables across five West African countries (Benin, Togo, Niger, Burkina Faso and Ivory Coast). The plans are linked to a major rail infrastructure project known as Blueline reports Ecofin Agency. While submarine communications cables are used to connect countries and continents to the Internet, terrestrial fibre optic cables are used to extend this connectivity to landlocked countries or to urban centers within a country. The government of Benin plans to connect 18 additional municipalities to the fiber optic network by mid-2025 as part of its goal to provide high-speed internet access to all 77 municipalities in the country. This announcement was made by Aurelie Adam Soulé Zoumarou, Minister of Digital Economy and. The Benin Fiber Optic Cable Market may undergo a gradual slowdown in growth rates between 2025 and 2029. 23% in 2025, the market steadily declines to 15. Aware of the importance of data protection and ensuring continuity of transmission, the Investor decided to cooperate with a reliable business partner and.
