

## Burkina Faso power distribution cabinet

### Overview

L'électricité au Burkina Faso constitue un secteur stratégique pour le développement économique du pays. Le système électrique burkinabé repose principalement sur la Société nationale d'électricité du Burkina Faso (SONABEL), entreprise publique qui assure la production, le transport et la distribution d'électricité sur l'ensemble du territoire national. HistoireL'histoire de l'électricité au Burkina Faso remonte à 1954, lorsque AOF Énergie démarre son activité de production. Selon les données de 2023, le Burkina Faso dispose d'une capacité de production électrique de 714,4 MW pour une demande nationale estimée à 510 MW. Cette situation permet théoriquement au pays de satisfaire s. La consommation d'électricité au Burkina Faso connaît une croissance soutenue de plus de 13% par an selon les données historiques. Cette croissance reflète le développement économique du pays et l'extension. Le taux d'électrification au Burkina Faso demeure un défi majeur pour le développement du pays. L'accès à l'électricité reste particulièrement limité dans les zones rurales. Le gouvern.
