

## Cableway Staircase Bend

### Overview

Based on our own travel experience, and reviews from our customers and Tripadvisor, we have selected the following must-see attractions on the mountain. The tour needs more than half a day, even a full day if you want to travel slowly. Our guide will remind you to bring some snacks / a picnic. Food sold at the small restaurants on the mountain is expensive, and the quality is unreliable. We don't arrange our customers to eat at the mountain restaurants. The itinerary usually goes this way: 1. Cable. There are clean squat toilets at every major sight. Your guide will tell you where they are. No toilet paper is supplied, so bring your own. There are shops at Tianmen Cave selling simple snacks (such as biscuits) and bottled water. Prices are three or four times higher than those sold at the foot of the mountain. Ask your guide for help if you need it. Most of Zhangjiajie's renowned scenic attractions are an hour north of the city in Wulingyuan Scenic Area: 1. Zhangjiajie National Forest Park- the main area including "Halleluyah Mountain", the precipitous pillars, and spectacular photography locations 2. Zhangjiajie's Bailong Elevator: Do You Dare Ride It?

It's the world's highest and fastest outd. If you are interested in Tianmen Mountain, please see our popular tours below for inspiration. All of our Zhangjiajie tours can be customized around your interests and tastes. 1. 5-Day Zhangjiajie Hiking and Biking Tour for Any Level 2. 4-Day Essence of Zhangjiajie Tour 3. 1-Day Zhangjiajie National Forest Park Tour.
