

Can outdoor fiber optic cables be removed

Overview

After fibre installation, the old copper line becomes redundant but may still be physically connected. In our continuing discussion of installing FO cables, let's use a step-by-step approach in detailing how to strip and clean indoor and. To strip and clean outdoor FO cable, you have to start with the outer jacket. Step 1: Mark the armor (if the cable has armor) with the tip of your knife to note a length sufficient to expose the cable's ripcord, being careful not to go through the armor and cut the ripcords. Local company practices and/or vendor specifications may be in place concerning cable access and how it relates to a. I am switching off of a fiber plan and my provider is telling me I should permanently keep the fiber optic cable dangling out of the wall. Am I really supposed to leave it dangling on the floor like that, or can I remove the cable out of the wall?

: r/HomeNetworking I am switching off of a fiber. Are you looking to remove the old line completely?

JA: Is the old line still connected or in use in any way?

JA: Is there anything else the Network Technician needs to know about this situation?

Rest assured, they will be able to help you with removing the old line if necessary. ScottN0130 is. Underground cables are pulled in conduit that is buried underground, usually 1-1.
