

Clx optical cable

Overview

Continuously Welded Armor C-L-X MC-HL Cable, clx type mc cable conductors rated 90°C dry available in sizes 12 AWG and 10 AWG, and two insulated grounding conductors—one solid green and the second green with yellow stripes. C-L-X Type MC-HL cables with the impervious, continuous, corrugated aluminum sheath are recommended as an economical alternate to a wire in conduit system. The conductors are cabled together and a binder tape bearing the print. Belden's Central Loose Tube Fiber Cables support indoor/outdoor use—including conduit, direct burial, aerial and trunking. Built with 250 μm fibers (2–24 count), they're offered in plenum, riser, indoor/outdoor-LSZH and outside plant (OSP) ratings. Armor options include all-dielectric, aluminum. Nassau Electrical offers clients a place to buy top of the line electrical cables and wires at a great price.
