

Core Switch CE5810

Overview

Deploy Huawei CE5810-48T4S-EI for high-density GE access with 48xGE RJ45 and 4x10GE SFP+ uplinks, ideal for campus and server-edge aggregation. This document provides an overall description of the CE5800&6800&7800&8800 series switches hardware that versions earlier than V200R020C00, helping you obtain detailed information about each chassis, power module, fan module, card, cable, and pluggable modules for ports. This document provides an. FP+, Without Fan and Power Module. It is one of the Huawei CloudEngine CE5800 eries (CE5800 for short) switches. A stack system of 16 member switches has a maximum of 768*GE access ports that provide high-density. The Huawei CloudEngine 5800 Series Switches are part of Huawei's data center network solution, designed for high density 10GE/40GE/100GE access and 40GE/100GE/200GE/400GE core aggregation. Product. High quality CE5810-EI-B01 02359082 CE5810-24T4S-EI Switch from China, China's leading Huawei Network Switches product, with strict quality control Huawei Network Switches factories, producing high quality Huawei Network Switches products.
