

Eight-port industrial-grade managed gigabit switch

Overview

The L3 Industrial 8-Port PoE Gigabit + 4-Port 10G SFP+ Managed Ethernet Switch provides 8*PoE Gigabit downlink Ethernet ports, 4*10 Gigabit uplink SFP ports. 3 af/at, layer-3 network management, and PoE management. Eight auto-negotiating 10/100/1000 Mbps ports send data via Cat5e/6/6a cable only to the devices designated to receive it, which improves the efficiency and potential throughput of the network. Easy to use and highly reliable, it optimizes communication performance and maximizes uptime. The NT5008 features eight 10/100/1000BaseT RJ45 ports and the rugged design and security of. The growing trend towards networking in the industrial and building sector calls for even more powerful and, at the same time, compact switches due to factors such as the greater use of IP cameras. Both the 8-Port Industrial Switch (852-1102) and the 8-Port Industrial ECO Switch (852-1112) meet. Equipped with anti-dust IP30-rated aluminum alloy case, the switch is designed and certified to withstand a high degree of vibration, shock, free-fall protection and against ESD/EMI surge for harsh environments.
