

## H3C Convergence Stacking Switch

### Overview

Switch Stacking/IRF Configuration | H3C switches IRF Setup In this video, I demonstrate how to configure H3C IRF (Intelligent Resilient Framework) / switch stacking. □Physically connecting the switches Switch-A & Switch-B (Port 32). When configuring stack management, go to these sections for information you are interested in: | Stack Management Overview | Stack Management Configuration Task List | Configuring the Master Device of a Stack | Configuring Stack Ports of a Slave Device | Switching from the Master Device to a Slave. Stacking is also called IRF (Intelligent Resilient Framework) in H3C. In this way, we will obtain more ports as per our requirements and also redundancy of equipment. Hewlett-Packard has acquired the H3C switch-technology to build their new 5xxx series. This tutorial is based on the HP 5920AF-24XG Switch (JG296A) but it can be used also with 51xx/55xx switches. The master device acts as the central point of control. Operation Manual – Stack-Cluster H3C S3100-52P Ethernet Switch Table of Contents Table of Contents Chapter 1 Stack.
