

## High and Low Voltage Complete Sets of Equipment Middle East

### Overview

This solution covers a complete set of power equipment from low-voltage distribution cabinets, high-voltage switchgear to transformers, automation control systems, etc., aiming to provide comprehensive and customized power solutions for various users. The Middle East has emerged as one of the fastest-growing regions in terms of electricity demand and infrastructure development. ERSO excel in the specialized supplies, servicing and exporting of High, Medium and low voltage Power Generation, Distribution & transmission equipments which include Distribution Transformers, Power reactors, Renewable. Our high and low voltage complete electrical equipment solutions are designed based on a deep understanding of the current development trends in the power industry and accurate predictions of future power demand. discover our diverse range of products. browse our selection of. Today our company is rated one of the best factories in designing and manufacturing of Variou types of distribution and control panels Low voltage (LV), medium Voltage (MV) and High Voltage (HV) up to 132 kV switchgear. We test the entire manufacturing product Panels according to IEC Standard. We are Middle East Company founded on 1989 since we are authorized distributor for ABB low voltage products, as ABB is a pioneering technology leader that works closely with utility, industry, transportation and infrastructure customers to write the future of industrial digitalization and realize.
