

How much does a galvanized perforated cable tray cost

Overview

The average cable tray price per meter ranges from \$2 to \$25, depending on material, type, size, and surface finish. For bulk orders or project pricing, the cost can be significantly lower. The main cost driver is the material used in manufacturing: Galvanized steel is the most common. They are also cost-effective, requiring minimal maintenance and resulting in long-term savings. Their durability makes them a reliable choice for electrical needs across various industries. NewReach Galvanized Cable Trays undergo galvanization through various methods, with hot-dip galvanizing being the most common. The cable tray are for hot dip galvanized ladder type cable tray. Gi perforated cable tray offer high strength as per specification and good ventilation to cables which made them perfect. Steel, often galvanized or powder-coated, provides strength and durability, making it suitable for heavy-duty applications. Aluminum is favored for its lightweight nature and resistance to corrosion, ideal for installations where weight is a concern.
