

How much does a meter of optical fiber cable cost from an Eastern European manufacturer

Overview

The price swing usually depends on the fiber count (e., 12-core vs 96-core) and brand. Generic glass is cheap; premium glass (like Corning) costs more but guarantees lower attenuation. You are looking at \$0. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. Single-mode fiber costs less per foot than multimode fiber, but it requires more. The unit cost of fiber optic cables can vary from \$0. Custom-built cables or niche specifications can lead to higher prices. Main cost drivers include cable grade (indoor vs outdoor, armoured), distance, and labor for trenching, splicing, and termination. This guide presents ranges in USD and practical price estimates to help. Single-mode fiber (OS2): This is the industry workhorse. Generic. This article summarizes the latest fiber optic price data as of March 9, 2026, along with the recent timeline of price changes and the factors behind the surge. Before looking at the price, it is important to explain the source of the price data.
