

How much does it cost to build a network server room rack

Overview

On average, constructing a professional-grade server environment ranges from \$625 to \$1,135 per gross square foot. For small businesses, a basic setup with 1-2 racks can start around \$15,000 to \$25,000, while enterprise installations quickly escalate into the hundreds of thousands of dollars. These include the size of the installation, the complexity of the equipment, labor costs, and infrastructure requirements. Size of the Data Center The scale of the data center plays a large. In this article, we'll examine server room requirements and costs, before discussing some of the reasons why outsourcing server deployment and data center management to ServerMania is the better choice. See also: 10 Gbps Unmetered Dedicated Servers 1. Entry-level racks, such as small wall-mounted units, typically range from \$200 to \$500. But understanding this range, and what makes one rack cost more than another, can help you make smarter infrastructure decisions.
