

Large AI Server Order

Overview

TL;DR: Quanta Computer reports unprecedented orders for NVIDIA's Blackwell Ultra GB300 AI servers, with shipments peaking in Q4 2025. Khurram Hanif, AI Reporter at AllAboutAI.com, covers model launches, safety research, regulation, and the real-world impact of AI with fast, accurate, and sourced reporting. He's known for turning dense papers and public filings into plain-English explainers, quick on-the-day updates, and practical. Artificial Intelligence (AI) server manufacturers have experienced surging demand as data center operators require significantly more computing power than before the advent of ChatGPT and other Generative Artificial Intelligence (Gen AI) tools. Dell, Supermicro, HPE are the big 3. But ODM direct sales dominate as Microsoft, Amazon, Google and Meta continue to custom order their own servers. Image: . Elon Musk's AI startup xAI has redirected its AI server orders from Supermicro to Dell, delivering a significant lift to Dell and its key suppliers, Inventec and Wistron, according to a report by UDN.
