

Maldives Data Center Telecom Shelter Construction Case Study

Overview

Qatari telecoms company Ooredoo has launched a new data center in the Hulhumalé smart city in the Maldives. The facility is built to Tier III standards, but not yet certified. The Maldives, known for its breathtaking islands and vibrant tourism industry, is rapidly embracing technological advancements, including the development of state-of-the-art data centers. The inauguration ceremony was jointly. The Republic of the Maldives, a Small Island Developing State (SIDS), consists of some 1'200 widely dispersed islands that are spread over 820 kilometers from North to South. Given the country's unique geographical characteristics, it is a noteworthy that the country achieved universal access in. The project involves partially funding Dhiraagu's investment capital expenditures (CAPEX) and working capital requirements. The proposed CAPEX will enhance connectivity and improve telecoms services in Maldives. These comprise data center expansion, service extension and coverage enhancement, and. Received a Token of Appreciation from the Government of Maldives for achieving 100% Fibre-to-the-Home (FTTH) coverage across all inhabited islands in the Maldives.
