

Mexican Terminal Box 8-Chip

Overview

It consists of 4x optical cable inlet and 8x outlet PORTS, some Splice trays, a tissue system with optical fiber splicing tray and 8pcs bayonet type enhanced pre-connectorized waterproof SCAPC adapters, which can be accessed and connected from the outside of the box. Optical Fiber Box is widely used as a termination point for the feeder cable to connect with drop cable. Suitable to work with 8 pcs SC Simplex or LC duplex fiber adapters on wall mount use. It can be installed on walls or utility poles, and its waterproof cover ensures maximum moisture protection, ensuring optimal performance in any weather.
