

North Macedonia Tanzania Bridge Structure

Overview

Built by China Railway Construction Corporation Limited (CRCC), the 4.66-kilometer structure stands as Africa's longest low-pylon cable-stayed bridge, featuring a 520-meter main span with three towers and dual cable planes that connects both shores of Lake Victoria. Based on this work, an improved database with inventory and damage data has been created. This investigation has been done in the framework of the INFRA-NAT project (www.infra-nat.org). As of December 2011, the country has 4,880 bridges. ^ "Miaka 50 ya Uhuru wa Tanzania Bara: Sekta ya Ujenzi" [50 years of independence of Tanzania Mainland: Tanzania has completed construction of the JP Magufuli Bridge, also known as the Kigongo-Busisi Bridge, a landmark infrastructure project that now holds the record as the longest bridge in East and Central Africa. 2 kilometres across the Gulf of Mwanza on Lake Victoria—with an. (MENAFN - GlobeNewsWire - Nasdaq) BEIJING, June 26, 2025 (GLOBE NEWSWIRE) -- The JP Magufuli Bridge in Tanzania's Mwanza Province officially opened to traffic on June 19, 2025.
