

Optical junction box has no power

Overview

A power cycle, also known as a reboot, is the simplest way to reset your ONT box. Wait for 30 seconds: Allow the device to discharge any residual. Some come with a battery back up unit which provides power for a limited time, but the power plug is still needed. If you contact BT or whomever is your current Internet provider, then they should be able to send a new plug out for you. Your ONT is typically located in your garage, basement or outside your home within a few feet of your home's power box. Before troubleshooting your ONT, we recommend. My Openreach ONT box has stopped working and has no power. Can anyone advise how I can arrange this with Sky as the automated system doesnt seem to want to help.
