Electricity sector in Paraguay

OverviewElectricity supply and demandAccess to electricityService qualityResponsibilities in the electricity sectorHistory of the electricity sectorTariffs and subsidiesInvestment and financing

Paraguay is one of the few countries in Latin America that has maintained an integrated electrical system. Because of the dominance of hydroelectricity, tariffs (mostly residential) are remarkably below the averages for the region. However, despite the abundance of resources, the Paraguayan electricity system faces difficulty due to the lack of investment in transmission and distribution networks. In addition, distribution losses are among the highest in the region.
