

Portable fiber optic cable laying rack

Overview

Designed to optimise fibre optic cable management, these racks provide advanced solutions that reduce interference and improve airflow. Available with modular options, fibre optic racks can be customised to meet specific needs, ensuring fast installation and simplified. The Flexi Rack series is specially designed for termination and management of many fiber cords. This lightweight rack is made of aluminum and has 19" or ETSI profiles that allow flexible height adjustment when you install an ODF system. Due to its simplistic design, the FR70 rack/frame is easy to install and manage with low maintenance costs, yet it is.
