

# Russian Telecom Fiber Optic Cable Model

## Overview

In late 2012, Russia's leading telecom companies Rostelecom, MTS, PJSC Vimpelcom and Megafon signed memorandum to jointly build and operate submarine-laid fiber optic cable to connect between town of Okha on Sakhalin Island with the mainland towns of Magadan and Petropavlovsk-Kamchatsky. Capacity of the underwater cable will amount to 8 Tbit/s (80\*100 Gbit/s) with th. Overview Telecommunications in Russia is highly developed and have evolved from the early days of the to modern and high-speed networks. Due to the, the countr. "Networking" can be traced to the spread of and in Russia, and information transfer by technical means came to Russia with the and, besides, a 1837 sci-fi novel, by the 19th-ce. The is responsible for establishing and enforcing state policy in the sphere of electronic and postal communications, for promulgating the development and introductio.
