

Transparent Wi-Fi Connection Box

Overview

Shop RF-transparent enclosures engineered for Wi-Fi routers, antennas, access points, and other wireless equipment. This unique and revolutionary enclosure ships as a flattened box, made of heavy duty polypropylene (PP) resin for maximum strength and flexibility. The body assembles easily using flexible hinges to fold the box into shape, with locking insertion tabs used to secure the sides of the box. The ENP1700NA is constructed of Wi-Fi transparent material to manage wireless components and AV devices at point-of-use locations, like directly behind a TV or other media centers. Made from non-metallic, RF-friendly materials, these enclosures allow signals to pass through while. This transparent router storage box features a punch-free and wall-mounted design and is easy to install without damaging the wall. Find more 15, 154102 and 1541 products. Enjoy ✓Free Shipping Worldwide! ✓Limited Time Sale ✓Easy Return. Features a No-Drill PVC Non-Metallic Equipment Mounting Plate - Mount your equipment securely without the need for drilling! The Altelix NF100806VM features two 3 inch air vents covered by rain shields, with cleanable screens. It is ideal for protecting equipment from harsh environments and.
